

Susan Mowbray

Partner, Consulting, MNP LLP

Susan is a Partner with MNP's Consulting Group in Vancouver and leads MNP's national Custom Research and Economics Insight Practice. She is an economist who specializes in developing quantitative estimates to inform decision-making and policy development. Her work includes estimating economic impacts, developing economic indicators, preparing demand forecasts, labour market analysis, undertaking cost-benefit analysis, and estimating the costs associated with the delivery of products and services.

She is regularly invited to speak on economic conditions and provides insight on what the macro environment means at the regional level and for individual organizations.
